

General Dynamics Land Systems-Canada Announces Over 200 Employment Opportunities for Engineers/Technologists

LONDON, Ontario – General Dynamics Land Systems-Canada announced today that they have immediate openings for over 200 Engineers/Technologists at their London, Ontario facility. Positions are available in the areas of System Engineering, Design Engineering, Human Factors Engineering, Design Services, Technical Writing, Technical Illustration, Diagnostics Engineering and Maintenance Engineering/Validation.

Further details on these positions are available at www.monster.ca using the search words, “General Dynamics Land Systems Canada”. To be considered, applications must be submitted through the Monster website.

Dave Crocker, director of Engineering Design and Development for General Dynamics Land Systems-Canada, said, “With our recently announced contracts, we have an immediate requirement for over 200 engineers and engineering technologists in a wide variety of disciplines. We are offering exciting opportunities for qualified individuals to work on leading edge technology with the world’s leading supplier of armoured military vehicles.”

On November 24, 2009, General Dynamics announced a contract with the U.S. Army to supply 724 Light Armoured Vehicles under their Foreign Military Sales (FMS) program. Subsequently, on December 3, 2009, General Dynamics announced an additional contract with the U.S. Army to design the Stryker of the future.
